For the Soul

What are you stressed about the most? Is it school? Family? Friends? Or life in general? Well, the website *For the Soul* is a place for you. On this website, you will be able to relax and access some things that might help with distressing you from the world. We have a variety of things to choose from, such as some suggested poems/books to read from, calming music to check out, a spiritual section that will offer you some gospel truths featuring meditation techniques, and even some relaxing photos that can hopefully bring you some peace. The goal of creating this website is to allow users to distress from the world and make sure that their well being is positively aligned and prioritized, when they feel the need to do so. Mental health awareness is important to keep up with, so I would like to make this accessible for those who are in need of it.
